

OTICON | **Ruby**

Made to move

One complete hearing solution

oticon
life-changing technology

Keeping you connected to the things that move you

Help your brain with BrainHearing™ technology

Improving your hearing has many positive effects. Treating hearing loss is proven to improve people's quality of life in many ways, including easier listening, improved understanding and even better mental health.*

Hearing lets us connect to the world around us. It lets us laugh with friends during a wonderful meal. Find directions if we get lost on an exciting adventure. And helps us to feel the emotion in our favorite songs.

It's important that when you're on the move, listening to music, or in an important conversation that you don't have to worry about the performance of your hearing aids. They just work.

New Oticon Ruby offers the best sound quality in Oticon's essential category and is filled with great features:

- New easy-to-use charger provides a full day's charge** in just a few hours.
- Bluetooth® low energy connects you to a wide range of smartphones, TVs and computers.
- New SuperShield feedback management system prevents whistling before it occurs so you can enjoy special moments without interruptions and without drawing unnecessary attention to your hearing aids.
- Compatible with Oticon RemoteCare, an app that allows your hearing care provider to remotely adjust and fine-tune hearing aids in a virtual appointment, from the comfort of your home.

** Lithium-ion battery performance varies depending on hearing loss, lifestyle and streaming behavior.

Made for **special moments**

Enjoy a comfortable listening experience

Oticon Ruby offers advanced sound processing letting you capture the rich, natural details in life's everyday moments. Ruby features a unique combination of advanced BrainHearing technologies, designed to help your brain understand more. With Oticon Ruby on your ears, you can feel confident going out and participating in life's everyday situations with your family and friends.

A full day's charge in three hours

Place your hearing aids into the intuitive easy-to-use charger for a full day's charge* in just three hours. A quick recharge delivers six hours of power in just 30 minutes.

* Lithium-ion battery performance varies depending on hearing loss, lifestyle and streaming behavior.

“ DID YOU KNOW?

You can quick charge your hearing aids. Just 30 minutes will give you up to six hours of power.

A choice of models and features

- Compatible with Oticon ON App and Oticon RemoteCare App

life-changing
technology

Made to **make**
your life easier

Connect to the people around you

Oticon Ruby uses 2.4 GHz Bluetooth® low energy technology so you can watch videos, stream music, take phone calls and much more - all from your hearing aid. You can pair Oticon Ruby with multiple TV adapters and use the Oticon ON App to stream from any TV when moving around your home for a virtually seamless experience.

Control your hearing aids from your smartphone

The Oticon ON App lets you adjust volume, switch settings and check battery level from the palm of your hand. The app also offers a convenient Find My Hearing Aid feature and HearingFitness™, a tool that monitors and shows your progress towards your hearing goals.

“ DID YOU KNOW?

The Oticon ON App lets you adjust hearing aid settings from your smartphone.
